Construction and dismantling: General regulations

During the construction and dismantling periods, trucks are directed by a special guidance system close to the trade fair grounds.

The following regulations apply during interzum 2009 for vehicles over 3.5 tons:

1. Trucks over 3.5 tons will be directed to P22 from May 6th, 2009.

At P22, vehicles will be registered and access permission will be granted for entering the trade fair grounds.

Access will not be granted to the trade fair grounds unless:

- The exact delivery location (hall, stand number, service door) has been assigned
- The required logistics services have been provided by the contract transport agency
- The required areas for loading and unloading are available at the halls
- The customs handling can be completed

Our traffic staff at P22 will then direct trucks to the grounds.

2. When the dismantling period begins (on the last day of the trade fair), all arriving vehicles will be directed to P22 by means of signposting and with Police assistance.

Vehicles may not access the trade fair grounds until 8:00 p.m. on May 16th, 2009.

Special regulations apply to vehicles weighing less than 3.5 tons (see access regulations on the last day of the trade fair).
